

ScanGo Invoice + Stripe Connect

1. Create Your ScanGo Invoice Account

Sign Up

- Go to **ScanGoInvoice.com**
- Create your account with email + password

Subscribe

- Choose your plan
- Unlock invoicing + payment features

2. Start Stripe Setup Inside ScanGo Invoice

Open Settings → Payments

- Click **Connect with Stripe**
- You'll be redirected to Stripe's secure onboarding flow

3. Create or Connect Your Stripe Account

Choose One:

- **Create a new Stripe account**, or
- **Sign in** to an existing Stripe account

Stripe automatically reuses verified business info when possible.

4. Enter Your Business Details

Provide Required Info:

- Business type
- Legal name
- Address
- Website or product description
- Bank account for payouts

Stripe shows only the fields required for your business type.

5. Verify Identity (If Requested)

Upload Documents:

- Government ID
- Proof of address
- Business registration (if needed)

Stripe handles all verification securely.

6. Accept Stripe's Terms

Agreements:

- Stripe Services Agreement
- Connected Account Agreement

Required to activate payments.

7. Return to ScanGo Invoice

You're Ready to Accept Card Payments

- Stripe is now connected
- Your invoices automatically include a custom QR code with logo and link
- Customers can pay instantly — no Venmo required

Your customers can now pay you directly from their digital invoice.

No printing (no print cartridges), no paper, no envelopes, no stamps, no checks, just emails out and money in your account!
